SUMMARY: Data & Analytics professional with 5+ years of experience designing and deploying ETL pipelines, administering enterprise analytics platforms, and consulting on self-service analytics strategy. Specialized in scalable and governance frameworks that empower business users while maintaining data quality and IT compliance.

PROFESSIONAL EXPERIENCE

Keurig Dr. Pepper (via HCLTech) – Platform Administrator & Analytics Engineer

Jul 2021 – Present

Platform Administrator

- Administered enterprise Alteryx Server, scaling the platform from individual licenses to 80+ concurrent users by establishing a COE with governance standards, best practices, and data quality guidelines
- Designed and deployed 30+ ETL workflows for the Finance team, ingesting data from Snowflake and delivering audit-ready outputs to SFTP servers – automating 40 hours of weekly manual work
- Migrated and productionized 200+ workflows from Sandbox to Prod – ensuring best practices and governance compliance of Alteryx ETL development through an automated compliance checklist

Analytics Engineer

- Engineered and maintained secure data source connections for various platforms (Snowflake, PostgreSQL, Oracle, SAP HANA, SharePoint), implementing multiple authentication methods (OAuth, Key-pair, Service Account) to ensure enterprise-wide data access and uptime
- Supported and delivered logical separation of Alteryx Server during a corporate divestiture by redesigning the Collections, delivering clean platform separation across 60 Collections with zero downtime
- Developed a self-service Analytic App leveraging MongoDB, Alteryx Macros, and visualization tools to monitor platform usage and surface optimization recommendations – eliminating 2.5 hours of workflows stuck in queue
- Developed POC solutions for ad-hoc business needs including HR data decryption via Python tooling, SharePoint batch download macros, and ML-assisted brand value imputation

Consultancy & Enablement

- Delivered roadshows and training materials to business users and analysts on Alteryx use cases and analytics best practices to improve organizational data literacy
- Owned team operations including authoring SOPs and technical documentation, onboarding and knowledge transfer for new analysts, and maintaining regular communication cadences with cross-functional stakeholders

USAA – Junior Data Analyst: Survey Analytics Project

Feb 2021 – Jun 2021

- Supported a large-scale survey analytics initiative — cleaning and preparing data for ETL pipelines, executing SAS programs, and delivering daily Excel dashboards to stakeholders

TECHNICAL SKILLS

ETL & Pipelines: Alteryx Designer, Alteryx Server

Data platforms: Snowflake, MongoDB, Oracle, SQL Server

Analytics & Reporting: Tableau, PowerBI, Excel

Programming Languages: Python, SQL, R

EDUCATION

The University of Texas at Dallas

B.S., Information Technology and Systems

Spring 2020

GPA 3.8

CERTIFICATIONS

Alteryx Designer Core Certification

June 2025

Alteryx Server Administration Certification

June 2023
