SUMMARY: Alteryx Server administrator with 5 years of governance, development, and consultation experience.

PROFESSIONAL EXPERIENCE

HCL Technologies – Frisco, TX

Keurig Dr. Pepper – Alteryx COE Governance Analyst

Jul 2021 – Present

Alteryx Server Administrator

- Administrate KDP Alteryx Server, build COE around best practices, guidelines and data governance to scale the from individual licenses to 80+ users on Server.
- Execute scheduled upgrades and best practices upkeep, while ensuring add-ons compatibility and minimal downtimes.
- Performing workflow migration from Sandbox to Production for eligible and compliant workflows, completing over 200+ number of workflows scheduled on PROD.

Alteryx Workflow Developer

- Develop and deploy ETL workflows for Finance team, pulling data from Snowflake and pushing audit-ready data to SFTP servers, saving analyst's hours of work with automation and daily scheduling.
- Build an analytic app with macros and data-dependent filter interface that user can customize and query financial data on Alteryx Gallery.
- Build usage reporting workflows that capture Gallery activities from MongoDB back-end.

Consultant

- Design and consult growth-plan, infrastructure requirements and best practices tailored to client's environment and organization in Self-service Analytics Journey while maintaining IT compliance.
- Present roadshow and educational materials to business users and analysts regarding Alteryx tools.
- Drafted executive and technical documents, maintain weekly/daily reports and communication to various stakeholders, and perform backlog grooming on JIRA, following SDLC standards for new developments.

USAA: Survey Analytics Project – Data Analyst

Feb 2021 – Jun 2021

- Performed daily tasks to import, prepare and clean data for ETL processes.
- Ran SAS programs and debugged exceptions before communicating updated Excel dashboards to stakeholders.
- Assisted Sr Analyst with data entry and validated reporting data, Sprint captured using Azure DevOps board.

Java Developer – Capstone project

Oct 2020 – Jan 2021

- Completed and passed HCL training software developer course that covers Java, HTML, XML, CSS, and SQL.
- Developed a Banking web app using Spring Boot frameworks with interactive features for Capstone Project.

EDUCATION

The University of Texas at Dallas

B.S., Information Technology and Systems

Spring 2020

GPA 3.8

Richland College

Associate of Science in Business

Fall 2017

GPA 3.8

TECHNICAL SKILLS

ETL: SSIS, Alteryx Designer, Alteryx Server

Analytics & Reporting: Tableau, PowerBI, SSRS, Excel

Database: MySQL, Oracle, SQL Server, Snowflake, MongoDB

Programming Languages: Java, Python, R

Project Tracker: JIRA, Confluence board, SDLC

CERTIFICATION

Alteryx Designer Core Certification

June 2025

Alteryx Server Administration Certification

June 2023

ELLIGIBILITY: U.S Citizen
